

```
class Header extends React.Component {  
  render() {  
    const { isCat, name } = this.props  
  
    if (!isCat) {  
      return <span>{name}</span>  
    }  
  
    return <h1>{name}</h1>  
  }  
}
```

**JSX is just
JavaScript**
